

Stand cleaning and waste disposal: A well-kept stand puts you at an advantage

A clean, tidy stand can make the difference between you and the competition. We can carry out professional cleaning for you – every evening after the fair ends. Put your trust in us as well when it comes to disposing your waste properly. Deutsche Messe can take care of everything for you – leaving you to focus on your business.

Your benefits

Cleaning before the fair starts, daily cleaning during the fair, and extra items such as cleaning exhibits and glass: Let your stand shine – **its inviting appearance will draw traffic to you.**

Waste disposal **in compliance with all legal rules and regulations:** That's our responsibility during assembly, and dismantling, as well as during the trade fair itself.

We are right by your side when the day ends with daily cleaning and professional waste disposal, giving you a fresh start at your stand the next morning when the doors open.

Your exhibits are at the heart of your stand – we will give them a thorough cleaning

Glass is particularly susceptible to spotting – our glass cleaning option makes sure everything is spotless

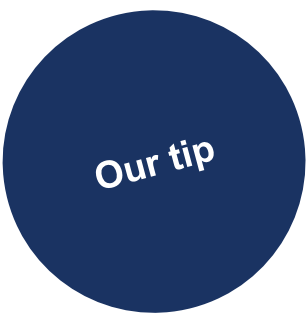

Have your waste picked up at the end of each day.

“During fairs, our staff focuses on assembling our stand and making sure everything runs smoothly, from the lighting to the new machines. That’s why we ordered the stand cleaning service online for HANNOVER MESSE 2016 before the fair even started. At the beginning of the fair we simply discussed the when and how personally with our contact. The service was reliable throughout. We were very satisfied and we plan to use the stand cleaning service provided by HANNOVER MESSE again.”
